Champion Spindrift Flashfire
"Blaze"
1994 - 2005

We are grateful to God for having given us the pleasure
of these beautiful Schipperkes to brighten our lives.
We remember each we've lost ... enjoy those which are still
with us ... and look forward to those yet to come.

Sadly, "Blaze's" kennelmate for all of his life,
Ch. OT's Spindrift Sea Wolf had to be euthanized on
December 4th after a sharp decline from cancer of his skull.
Wolf was almost 15.

Our last old men have crossed the Rainbow Bridge!

AKC SCHIPPERKE BREED STANDARD

General Conformation

General Appearance

The Schipperke is an agile, active watchdog and hunter of vermin. In appearance he is a small, thickset, cobby, black, tailless dog, with a fox-like face. The dog is square in profile and possesses a distinctive coat, which includes a stand-out ruff, cape and culottes. All of these create a unique silhouette, appearing to slope from shoulders to croup. Males are decidedly masculine without coarseness. Bitches are decidedly feminine without overrefinement. Any deviation from the ideal described in the standard should be penalized to the extent of the deviation. Faults common to all breeds are as undesirable in the Schipperke as in any other breed, even though such faults may not be specifically mentioned in the standard.

Size, Proportion, Substance

Size--The suggested height at the highest point of the withers is 11-13 inches for males and 10-12 inches for bitches. Quality should always take precedence over size. **Proportion**--Square in profile. **Substance**--Thickset.

Head

Expression--The expression is questioning, mischievous, impudent and alert, but never mean or wild. The well proportioned head, accompanied by the correct eyes and ears, will give the dog proper Schipperke expression.

Skull--The skull is of medium width, narrowing toward the muzzle. Seen in profile with the ears laid back, the skull is slightly rounded. The upper jaw is moderately filled in under the eyes, so that, when viewed from above, the head forms a wedge tapering smoothly from the back of the skull to the tip of the nose. The stop is definite but not prominent. The length of the muzzle is slightly less than the length of the skull.

Eyes - The ideal eyes are small, oval rather than round, dark brown, and placed forward on the head.

Ears--The ears are small, triangular, placed high on the head, and, when at attention, very erect. A drop ear or ears is a disqualification. **Nose**--The nose is small and black. **Bite**--The bite must be scissors or level. Any deviation is to be severely penalized.

Neck, Topline, Body

Neck--The neck is of moderate length, slightly arched and in balance with the rest of the dog to give the correct silhouette. **Topline**--The topline is level or sloping slightly from the withers to the croup. The stand-out ruff adds to the slope, making the dog seem slightly higher at the shoulders than at the rump. **Body**--The chest is broad and deep, and reaches to the elbows. The well sprung ribs (modified oval) are wide behind the shoulders and taper to the sternum. The fore chest extends in front of the shoulders between the front legs. The loin is short, muscular and moderately drawn up. The croup is broad and well-rounded with the tail docked. No tail is visually discernible.

Forequarters

The shoulders are well laid back, with the legs extending straight down from the body when viewed from the front. From the side, legs are placed well under the body. Pasterns are short, thick and strong, but still flexible, showing a slight angle when viewed from the side.

Dewclaws are generally removed. Feet are small, round and tight. Nails are short, strong and black.

Hindquarters

The hindquarters appear slightly lighter than the forequarters, but are well muscled, and in balance with the front. The hocks are well let down and the stifles are well bent. Extreme angulation is to be penalized. From the rear, the legs extend straight down from the hip through the hock to the feet. Dewclaws must be removed.

Coat

Pattern--The adult coat is highly characteristic and must include several distinct lengths growing naturally in a specific pattern. The coat is short on the face, ears, front of the forelegs and on the hocks; it is medium length on the body, and longer in the ruff, cape, jabot and culottes. The ruff begins in back of the ears and extends completely around the neck; the cape forms an additional distinct layer extending beyond the ruff; the jabot extends across the chest and down between the front legs. The hair down the middle of the back, starting just behind the cape and continuing over the rump, lies flat. It is slightly shorter than the cape but longer than the hair on the sides of the body and sides of the legs. The coat on the rear of the thighs forms culottes, which should be as long as the ruff. Lack of differentiation in coat lengths should be heavily penalized, as it is an essential breed characteristic.

Texture--The coat is abundant, straight and slightly harsh to the touch. The softer undercoat is dense and short on the body and is very dense around the neck, making the ruff stand out. Silky coats, body coats over three inches in length or very short harsh coats are equally incorrect.

Trimming--As the Schipperke is a natural breed, only trimming of the whiskers and the hair between the pads of the feet is optional. Any other trimming must not be done.

Color

The outer coat must be black. Any color other than a natural black is a disqualification. The undercoat, however, may be slightly lighter. During the shedding period, the coat might take on a transitory reddish cast, which is to be penalized to the degree that it detracts from the overall black appearance of the dog. Graying due to age (seven years or older) or occasional white hairs should not be penalized.

Gait

Proper Schipperke movement is a smooth, well coordinated and graceful trot (basically double tracking at a moderate speed), with a tendency to gradually converge toward the center of balance beneath the dog as speed increases. Front and rear must be in perfect balance with good reach in front and drive in the rear. The topline remains level or slightly sloping downward from the shoulders to the rump. Viewed from the front, the elbows remain close to the body. The legs form a straight line from the shoulders through the elbows to the toes, with the feet pointing straight ahead. From the rear, the legs form a straight line from the hip through the hocks to the pads, with the feet pointing straight ahead.

Temperament

The Schipperke is curious, interested in everything around him, and is an excellent and faithful little watchdog. He is reserved with strangers and ready to protect his family and property if necessary. He displays a confident and independent personality, reflecting the breed's original purpose as watchdog and hunter of vermin.

Disqualification

A drop ear or ears. Any color other than a natural black.

Approved November 13, 1990

Effective January 1, 1991

ADDITIONAL RULES

1. Entries must reach the Show Secretary, Sharon Licciardi, 38512 12th St E, Palmdale, CA 93550, by NOON (PST) WEDNESDAY, JANUARY 4, 2006. Fees should accompany entries. This club and/or its secretary assumes no responsibility for wrong or incomplete information given on the entry blank by the owner or agent of the owner. This club and its secretary assume no responsibility for the owner or owner's agents entering a dog in a class in which the dog is not eligible to compete, or for entering the same dog twice.
2. Returned checks do not constitute a valid entry fee. The club will add a collection fee to the amount of each returned check. Subsequent returned checks for the same exhibitors may result in their being put on a CASH ONLY basis. The returned check must be made good by cash or money order before the dog will be allowed in the ring.
3. Exhibitors' identification tickets and judging programs will be mailed to the address given on the entry blank. If not received within a reasonable time prior to the show, notify the secretary. Tickets returned by the Post Office marked 'undeliverable' will be held by the Secretary.
4. During the hours of judging owners are to be on call, and have their dogs ready to bring into the judging ring promptly, in order that the judging will not be delayed. Dogs need only be present for their judging. Dogs not needed for further judging may be excused. It is the responsibility of the exhibitor to have his dog ready to be shown and at the entrance of the judging ring when the steward calls for the class. Owners of dogs or the handlers of the dogs alone are responsible for the presence of their dogs in the judging rings. This means it is not the responsibility of the ring steward, nor of any agent of the show-giving club to locate any dog, its owner or handler, when the dog's presence is needed in a judging ring. It should be understood by every exhibitor and handler that waiting for dogs to be brought into the ring is a courtesy extended to the owner or handler of the dog. There is no rule of this club nor of The AKC that requires a judge to wait for an owner or handler to bring his dog into the ring. Show hours 8am-8pm.
5. Trophies and prizes will be awarded in the judging rings to the person exhibiting the dog, who is considered to be the owner or agent of the owner. All claims for trophies and prizes must be made in the judging ring before the completion of judging the breed. Notify the secretary of any discrepancy. No trophies or prizes will be mailed.
6. Exhibitors are admonished to make themselves familiar with the agreement of the American Kennel Club, referred to on the reverse side of the entry blanks that accompany this premium list. Rule books are available at the Secretary's table at the show or may be obtained from the AKC, 5580 Centerville Dr. #200, Raleigh, NC 27606.
7. The club, its secretary or their employees will not be responsible for the loss or damage to any dog exhibited, whether the result of accident or other causes and in addition assumes no responsibility for any loss, damage or injury sustained by an exhibitor or handler.
